

Recycled Magazine Scrapbooks

I work in a small 16 bed high care Aged Care Home whilst on night shift I made these scrapbooks for the residents to read, look through, play eye spy, reminisce. These have been very popular.

I made them out of old magazines, so far I have made a food, garden, people, 4WD, animals, and mixed scrapbooks. The magazines I have used are 4WD Australia, Better Homes and Gardens, Good Health. Any magazines can be used.

I have sorted through the residents care plans and am working my way through making each residents scrapbook based on their interests.

Cheers Kellie
